Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets.
? Food is grown and raised in ways that are terrible for the environment, with methods that pollute the water, poison the soil, and threaten our long-term food security.

? Just one company, Monsanto, controls the majority of seeds in the US, and regularly threatens farmers who don't buy its seeds.

? There is a "revolving door" of personnel between corporate lobbyists and government regulators. No wonder corporations aren't held to strict standards.

? Prices are rising at the supermarket, but you've heard that farmers are struggling -- and big food companies have made record profits this year.

Thank you for giving me the opportunity to comment.

Sincerely,

Faye Nieuwendorp
