**Subject:** Comments

---

I am writing because I am concerned about the lack of competition in agricultural markets.  
I am also very concerned about the use of chemicals in food production and on food itself. Science and good sense tell us that a diverse seed supply and healthy soils have a future.

Mono cultures and depleted, chemically altered soils have no future.  
Thank you for giving me the opportunity to comment.

Sincerely,

Constance P. Glore
