Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets. I live on Maui, where Monsanto has this large GMO seed corn production, and we learn that this international corporation is doing this same action in countless places. Our small farms are dying off while Monsanto is expanding. Historically, large plantations have poisoned the land, near shore coral reefs and ocean waters & streams with pesticides & herbicides.

Thank you for giving me the opportunity to comment.

Sincerely,

M Moran
