---

I am writing because I am concerned about the lack of competition in agricultural markets. Food is grown and raised in ways that are terrible for the environment, with methods that pollute the water, poison the soil, and threaten our long-term food security. If there an ACTUAL global care about the future generations and ability for the human species to continue...then CARE and MAKE A DIFFERENCE! Please.

Thank you for giving me the opportunity to comment.

Sincerely,

Casey
