Hi.

I live in an adult home in New York City with very limited additional disposable income. The food I eat doesn't taste right anymore, either the food I eat in the home or the food I buy in the store. I suspect that a lot of it is genetically engineered. I can't afford Organic.

I am writing because I am concerned about the lack of competition in agricultural markets.

Thank you for giving me the opportunity to comment.

Sincerely,

Tibor Weinreb
