Once all of our food becomes genetically-modified YOUR children will be eating it too. Doesn't this concern you? Does the money Monsanto waves in front of those it intices to allow it to win at monopoly override the freedom of your family to have choices?

What will the environment be like for your children and their children as Monsanto's money-making chemicals continue to pollute it?

I don't have any children but I am fighting for yours! Stop this destruction before it's too late.

Thank you for giving me the opportunity to comment.

Sincerely,

Ginger Mira
