Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets.

And I am also concerned with the unsustainable method of farming and method of raising livestock. It is not only bad for the environment, polluting our soil and water, but also harmful to peoples' health. More people die of food borne illness than HIV in this country each year because of agricultural practices.

Thank you for giving me the opportunity to comment.

Sincerely,

Rosemarie Sawdon
