Subject: Comments

Hello,

I have a question that I hope you can answer:

What's in our food, anyway? And why aren't there decent labels telling you where it grew, what chemicals are on it, and if it's genetically modified?

I hope you will consider looking at Monsanto and other big agribusinesses and see just how much power they have over our food system.

Thank you for giving me the opportunity to comment.

Sincerely,

Eric Kehoe
