Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets.

I only eat organic food to protect myself and health from any kind of artificially processed food.

To protect the soil and the health of the world's people we cannot have one company control so much of the food supply, seeds, fertilizers, etc.

They are interrupting the biological processes of nature. they must be stopped.

Thank you for giving me the opportunity to comment.

Sincerely,

Judith Alter
