Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets.

We all know that Monsanto is the worst of the worst, it is horrible for both farmers and consumers.

Prices are rising at the supermarket, but you've heard that farmers are struggling -- and big food companies have made record profits this year.

Americans know that food is grown and raised in ways that are terrible for the environment, with methods that pollute the water, poison the soil, and threaten our long-term food security; not to mention the implications that affect our health!

Thank you for giving me the opportunity to comment.

Sincerely,

Lana Zwygart
