Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets.

Monsanto's greedy dominance has threatened (to the point of extinction in more and more instances) ancient and exquisite seed lineages protected by various cultures for many hundreds of years!

Not only are these seed strains threatened or made obsolete, the economy, health, and integrity of the people-guardians of these strong well-adapted plant lines are at dire risk.

Stop the greed now!

Thank you for giving me the opportunity to comment.

Sincerely,
Barbara Brown
