Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets.

Farmers are no longer able to grow their own seeds, and are criminalized with expensive litigation, because one company has monopolized the seed production for their own profit.

Monsanta does not have my best interest at heart, neither do they care about the environment, it is well documented that their methods pollute the water and poison the soil.

Thank you for giving me the opportunity to comment.

Sincerely,

Karen King
