Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets. We need to be more mindful of what goes into our food and who is controlling it. Our children's health is at stake and so is human survivorship.

Strawberries that look like apples may be beautiful, but you have to wonder how they got that way and what they do to our bodies. We are, afterall, what we eat...let's make sure we aren't eating something evil that make look tempting...

Thank you for giving me the opportunity to comment.

Sincerely,
Kathryn Sibley
