Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets.

Further, labeling laws leave consumers in the dark regarding where their food comes from, and whether it contains GMO's, which are potential health hazards, not to mention environmental hazards.

CAFO's are producing animal products in ways that are inhumane, unsanitary, and dangerous to all concerned.

We can't expect to continue down the road we're on without consequences.

Thank you for giving me the opportunity to comment.

Sincerely,

B Paris
