Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets.

As a mother I am so angry about the control a company like Monsanto has over what my child will eat. Not only do they add dangerous chemicals to our food supply they now genetically modify our food supply to have the chemicals in them. What is worse is that I do not have the right to choose because GMOs are not labeled.

Monsanto is bad for family, farmers, health, and the environment.

Please stop allowing this company to talk away my rights and the rights of my family.

Thank you for giving me the opportunity to comment.

Sincerely,

Jennifer Pitt
