Subject: Comments

I'm 17 years old. My healthy diet consists of a wide range of agricultural products. I'm preoccupied that instead of eating a healthy diet I'm introducing to my body a whole range of pesticides. Department of justice should somehow make large corporations produce healthier food. At least it should be given to citizens the opportunity to choose among pesticide free products. Right now we don't have that opportunity.

I am writing because I am concerned about the lack of competition in agricultural markets.

Thank you for giving me the opportunity to comment.

Sincerely,

Wilfredo Rivera
