US Department of Justice

Dear US Department of Justice:

I appreciate the opportunity to comment in advance of the Department of Justice's workshops on "Agriculture and Antitrust Enforcement Issues in Our 21st Century Economy."

I am concerned about Monsanto's iron-fist control over the seed supply. By buying seed companies and aggressively patenting life, Monsanto controls over 90 PERCENT of seed genetics.

Monsanto's business model is that their fake seeds can cross-pollinate with organic and traditional varieties, thus destroying their unique characteristics and infecting them with genetically engineered chemical dependence. Once this occurs, it CANNOT be undone!

Sincerely,

RY MORAN
