US Department of Justice

Dear US Department of Justice:

Thank you for the opportunity to submit comments in advance of the Department of Justice's workshops on "Agriculture and Antitrust Enforcement Issues in Our 21st Century Economy."

As an organic consumer, I am particularly concerned about Monsanto's control over the seed supply.

The extent to which corporate ownership of the food supply in America has been consolidated in to a few companies is deeply concerning to me. Accountability decreases, and the tendency to put profit over human health and environmental sustainability is growing at an alarming rate. Please take action to break these large entities.

Thank You.

Sincerely,

Aaron Thompson
