Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets and the almost completely unregulated destruction Monsanto is unleashing upon the environment with such fantastic contributions to our planet as Agent Orange, DDT, rBGH, Aspartame, Terminator Seeds and all the other untested genetically modified foods that are cross pollinating with the foods I like to eat and polluting Nature as it currently exists.

Thank you for giving me the opportunity to comment.

Sincerely,

Jae Sabol
