Subject: Comments

I am writing because I am concerned about the lack of competition in agricultural markets.

It is of great concern that a few corporate giants have monopolized the market for seeds for food development in this country. In addition to control by the powerful few we have a regulatory structure that allows for virtual revolving door between the lobbyists for these corporate interests and the FDA and other agencies that are supposed to protect our food supply. Please take action to protect the interests of consumers before there are tragic consequences.

Thank you for giving me the opportunity to comment.

Sincerely,

Greg Perkins
